Pediatric First Aid For Caregivers And Teachers (Pedfacts)

Synopsis

The American Academy of Pediatrics (AAP) is pleased to bring you the Second Edition of its national pediatric first aid course, Pediatric First Aid for Caregivers and Teachers (PedFACTs). The PedFACTs course is designed to give caregivers and teachers the education and confidence that they need to care effectively for sick or injured children. This participant manual is the core of the PedFACTs course with features that reinforce and expand on the essential information. Each emergency topic is divided into three sections: • What You Should Know: Provides background information. • What You Should Look For: Provides assessment information. • What You Should Do: Provides first aid treatment information. The 4Cs of Pediatric First Aid • help focus providers on the steps they need to take to safely manage emergencies: Check, Call, Care, and Complete. New to the Second Edition, instructors can choose to teach the entire course in the classroom setting or have their students take the 2-hour online course before coming to class for the on-site skills and scenarios.

Book Information

Series: PedFACTs

Paperback: 502 pages

Publisher: Jones & Bartlett Learning; 2 edition (October 5, 2012)

Language: English

Customer Reviews

I read over this book and completed an in-person first aid/CPR course. I loved being able to read this book before I took the course (not affiliated with the book), and would recommend this book to anyone who would like to be just a little bit more prepared for the "what ifs".

I need the book for an instructor training class - I found it easy to read and current with AAP recommendations.

This book was recommended by the state DPI nurse consultant. I love it! It's a great tool for school staff.

My daughter runs a preschool and I purchased this for her as a learning tool and a reference. She loves it.

Great resource for new parents.

for school

A helpful review
