Customer Reviews

Great insight for world building as a novelist, but mostly geared specifically toward gaming.

Good read with a lot of solid information and tips. Not an all in one source for world building though, especially for those who are outside in world builders.

This book is a collection of essays from some of experts in world building. While most of it is geared to game development, I found it very helpful to me as a novelist. No other resource I've come across gave so much detail and prompted so many new ideas. I also have a new appreciate for the

art of video game creation.

Easy, enjoyable read. Wonderful advice, got my head spinning with ideas and plans. Using this as a world building guide for writing a novel. Worth buying!

This is a great book. Like all good RPG world building advice it has many gems in it. A must have for your library. Kobold guides are invaluable.

Still reading we'll written essays. Should be on every book list for Creative Writing 101 class. Just need larger text.

Explains things if you want more thought into a campaign but it is a lot of heavy reading. The essays well organized but not drop in easy.

Very good read, very helpful for anyone thinking of creating even a small slice of world (writers, gamers, overlords, etc.). Would definitely recommend.
