Dragonbreath #2: Attack Of The Ninja Frogs

Synopsis

Danny Dragonbreath knows girls are nothing but trouble. And the new foreign exchange student, Suki the Salamander, is the worst: she's reduced his best friend, Wendell, to a blithering, lovesick tadpole. But when a group of ninja frogs attempt to kidnap her, Danny knows he must step in. Danny and Wendell have watched lots of kung fu movies and can totally take on a bunch of ninja frogs. Or, um, so he hopes . . .

Grade Level: 3 - 7

Customer Reviews

Grade 2-4 Danny Dragonbreath's love of ninja comic books and movies not only fills his imaginative play, but also assists him when he is confronted in real life with ninja frogs that attack his friend Suki, an exchange student from Japan. This attack causes Danny and his friend Wendell to take her on a bus ride to mythological Japan to seek out Danny's wise great-grandfather to assist with their situation. The spirited illustrations, done in green and black with touches of red, capture the humor of the characters' adventures. This delightful easy chapter book could tempt reluctant readers into turning another page. Nancy D. Tolson, Mitchell College, New London, CT Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. --This text refers to the Hardcover edition.

Ursula Vernon is the author of the Dragonbreath series about Danny Dragonbreath. She lives, writes, and draws in Pittsboro, North Carolina.

Our 8 yr old son LOVED the Dragon Breath series because they make him "Laugh his head off!". He has read every book in the series, a few of them in a day. When asked why he likes these books he said "Because they have good characters, are funny, adventurous, and the story lines are crazy - crazy AWESOME!". All of these things make this book and the others in the series incredibly interesting to a kiddo who enjoys funny adventures. As a parent I appreciate that they are funny without being totally stupid and that they are easy to read without being "dumbed down". I would say the reading level is higher than Big Nate but not as high as say Harry Potter. These are great transition books for readers who need a bit more of a challenge. However they are also great for more advanced readers who just want to read a great story about an amazing adventure. Overall a great series and I would highly recommend for the 8-9 yr old set.

My 7 year old son isn't a huge fan of reading, but we do REALLY enjoy this series. Both of us. It always causes me great physical and psychological pain when I read these major series by major authors (I'm looking at you, R.L. Stine...) and there are so many grammatical errors that you could choke a horse with them. Ursula Vernon impresses me every time. Really well written, fun and engaging books that my reluctant reader actually looks forward to. I cannot wait to get the rest of the series and I am definitely going to get the Hamster Princess series too. Don't miss these. They are superior in their genre.

This is a children's book, and I am well beyond that age, but I enjoyed this book and laughed out loud at some places. I like the style of these books; a combination of prose and graphic novel with some of the action taking place within a graphic format. Ursula Vernon's drawings are magical and the expressiveness of the ninja frogs and the various lizards and dragons are a delight. I think this would be a great book to read to a child in a close situation where the pictures can be shared. Just be prepared to have to explain why you are laughing at different places.

Whenever I take my 7 year old to the bookstore, he always shoots down every book I pick out for him. I knew he would like this series if he gave it a chance, so I told him he could pick a book and I was picking one. Once he started reading the first book in the series he looked over at me and

asked me how it is that I am always right. He loved the book! He read the second book in one day! He begged to get off the boat yesterday just so he could read it. I love listening to him laugh as he reads, and pondering aloud why it is Dragonbreath can't breathe fire all the time. He is definitely hooked, and I have recommended it to all my friends with kids in this age group!

Have the whole series.

my boy loves them

I really liked this book! I want to read the whole series! Mom says they have to go down in price cause they are too much on the kindle but if I had my own fortune I would buy them all and read all day long.

This is actually my second copy of Attack of the Ninja Frogs. Dragonbreath is such a popular series in my classroom, that the pages started falling out of my first copy because it has been checked out and read so much. Students who start reading one of the books are always eager to get to the other 7. It's always great to find a series that gets fourth graders jazzed about reading!
