Information Services To Diverse Populations: Developing Culturally Competent Library Professionals (Library And Information Science Text)

Synopsis

Filling a gap in the existing library and information science literature, this book consolidates recent research and best practices to address the need for diversity and social justice in the training and education of LIS professionals.â € Addresses perennially important and emerging hot topics in librarianship, such as diversity, cultural competence, and social responsibilityâ € Updates the ongoing discussion on cultural competence and diversity with new concepts, such as critical race theoryâ € Authored by an expert who actively teaches and conducts research in the subject areas of library instruction and information literacy as well as diversity and social justice in librarianship

Customer Reviews

"This extremely relevant and topical guide only starts the conversation about diversity and gives the reader motivation to continue. It is a much-needed resource for both the student and professional." - VOYA"Although written for LIS students, this work is also essential for all information professionals and will be particularly valuable to library managers looking to recruit a more inclusive workforce." - Library Journal

Nicole A. Cooke, PhD, MLS, is program director for the MS in library and information science (MS/LIS) and assistant professor at The Graduate School of Library and Information Science at The University of Illinois, Urbana-Champaign.

Percise information about diverse groups.
