How To Learn Tattooing: Getting A Tattoo Apprenticeship

Synopsis

A complete guide to tattoo apprenticeships. This book will tell you how to make your portfolio stand out, how to approach shops and much, much more. You will also get a behind the scenes view of things giving you advice on topics such as how much you will earn and things you may not have considered about the job. This really does give you all the information you will need to set you on the right path and advise you on if tattooing is the right career for you.

Customer Reviews

I chose a 3 star rating because I found the grammatical errors off-putting and they made it harder to concentrate. More importantly though, I felt like he was a little bias in his advice and overall opinion of the tattoo industry; it just seemed like he was pretty negative about it all. Lastly, he seemed like a knowitall! Saying things like "if you get famous make sure to send me \$200 for giving you incredible advice!" Yeah not for an opinionated \$3 book that was barely skimmed for errors! That probably sounds rude, but I'm sorry. I'm sure other people may enjoy this book, it just wasn't for me.

Great info so far...he's telling it like it is. Some spelling errors, but I know what he means.

I gave this ebook a five-star rating because I feel that the author was very truthful with what he wrote. He did not give the reader the glamorous side of the tattooing world but the real side of it and how it really is. I wished that there were more author's out there that would do the same.

got this for my nephew who is interested in getting into tattooing. he says it has useful info

Thank you!! This answered all my questions and gave me confidence to get out there and try!

This is a well made instructional book it will answer all your questions and give you a foot in front of the door

The book was too short...Very vague and slumped out on some important topics. Lot's of typos, pretty negative read all around.

This is not a "how to tattoo" book, please do not tattoo anyone without proper training. That being said, this is a great read for anyone looking into getting an apprenticeship at a tattoo shop/parlor. Garlick brings light to areas people often don't consider when thinking about entering the tattoo industry. Great book. Highly recommend.
