About the Authors Ryan Duell is a principal quality assurance analyst for Revit at Autodesk, where he previously spent several years providing Revit support for end users and enterprise accounts. He also teaches Revit at the Boston Architectural College. Tobias Hathorn is a licensed architect and user experience designer for Autodesk. He is currently working on Autodesk FormIt, a conceptual design tool to aid in the early stages of a BIM workflow. Tessa Reist Hathorn is a licensed architect and a LEED Accredited Professional with 10 years of architectural experience using Autodesk Revit. She presently works as an architect at Farnas Architecture in Boulder, Colorado, specializing in custom homes.

Great book!! But I recommend this book only for beginners, for who need help to start to use the Revit. The book shows all main functions to start in the Revit and BIM platform. For who want a book to study for certification is a better idea take a more advanced book.

Incredibly helpful when learning Revit! Easy to follow step by step tutorials with downloadable templates.

Very clear instructionsEasy to use and learn from
