## Customer Reviews

For almost 80 years, Kaplan Test Prep (www.kaptest.com) has been helping students grow their knowledge, skills and confidence so they can be their best on Test Day. Our prep books and online resources provide the expert guidance that students need at every step of their educational journey

— incorporating years of test-specific data and strategies tested by Kaplan students and our own expert psychometricians. After helping millions of students, we know what works. Our guides deliver knowledge with clarity and simplicity while focusing on the specialized strategies that keep test-takers ahead of the clock and at the top of their game. We offer preparation for more than 90 standardized tests — including entrance exams for secondary school, college, and graduate school, as well as professional licensing exams for attorneys, physicians, and nurses. With a full array of self-paced and live online courses, as well as print books and mobile apps, you can use Kaplan to study on your own schedule and at your own speed. Kaplan's private tutors and admissions consultants supplement those offerings with one-on-one support.

The app is worth the entire purchase cost! Whenever I'm standing in line waiting to check out, or waiting on an appointment, I can open the app and study on the go. The app lets you separate words into three categories: words that you know well, know somewhat well, or don't know at all. Then you can make different decks of cards based on those categories, so you can hone in on the words you need most. It's really convenient for focused study and busy schedules!

I think this is a great resource for prepping for the GRE. I would recommend to get these vocabulary cards about 2 to 3 months prior to your test. It's just good to start studying a few cards a day until you truly understand the meaning of the words. I do wish the Flashcards would have come with extra blank cards that you can write your own words that may be in the GRE book but not in the vocabulary cards.

They're easy to read and a FANTASTIC size. They're really comprehensive as well. I really like how it includes pronunciation and an example sentence. It really helps. The paper is slick, kind of like thicker magazine paper. They're also pretty thin, but I don't really care. They are practical tools for studying and they haven't broken or torn.

It worked for me. I was able to get into Marshall University's grad school thanks to Kaplan. I strongly recommend their GRE exam lessons. Marshall recommended it to me.

Gets the job done. I think it would be nice if there was another set of flash cards for words of varying difficulty. I also wish there was a keychain for on the go studying. Worth the purchase.

Very useful for preparation for GRE. Given that the words are occupying only a small space in the side of the card the font size could have been bigger

I got these to prep for the GRE with every intention of learning every single card. Full disclosure, I am not the most studious person. The stack was pretty thick and I got a little intimidated by it - didn't make it past the C's. HOWEVER, the app was awesome. I was able to get through smaller lists and mark the ones I knew and those I needed to work on. I recommend these to anyone determined enough to make it through!

Very helpful
