Required for a college course. The book was surprisingly interesting and well written.

The book it's self seems a little watered down. I used the last edition in my previous class and it seemed more definate on what it was saying. As if this book is trying to not offend anyone. It is an enjoyable read but I get the feeling that I'm not getting as much information as I could.

When I received the textbook, it looked as if it was just new and untouched by the people who previously used it. There were no folds on the tips of the pages and the paperback cover is quite smooth and neat.

Good product. Good Price.

Good condition

I was pleased with this purchase and seller.
