Educational Testing Service (ETS) (Princeton, NJ) is a private, nonprofit organization devoted to educational measurement and research, primarily through testing. Founded as a nonprofit in 1947, ETS develops, administers, and scores more than 50 million tests annually—including the TOEFL® and TOEIC® tests, the GRE® tests, and The Praxis Series® assessments—in more than 180 countries, at over 9,000 locations worldwide.

I'm a Harvard Grad, 99% GRE Scorer (337, 168Q / 169V, 5.5 AWA) and GRE private tutor since 2002. I can strongly recommend these official ETS guides for anyone serious about performing well on the GRE, but the 3 individual books included in the Super Power Pack are currently more affordable to purchase separately (\$33) than through this bundle (\$38). Official Guide to the GRE, 3rd Edition: The Official Guide to the GRE General Test, Third Edition Official Verbal Practice Questions, 2nd Edition, Volume 1: Official GRE Verbal Reasoning Practice Questions, Second Edition, Volume 1 (Test Prep) Official Quantitative Practice Questions, 2nd Edition, Volume 1: Official GRE Quantitative Reasoning Practice Questions, Second Edition, Volume 1 (Test Prep) Ultimately, you will need these 3 books for an optimal GRE preparation, because the included practice tests / questions are the real deal. The fact that Princeton and Kaplan GRE preparation books--full of fluff, filler, willful ignorance of the GRE official materials, and typos--sell better than the GRE Super Power Pack is an absolute shame. After many years of receiving scant practice material from ETS, I am relieved to say that ETS has now provided enough official materials for a nearly full preparation for the GRE, so the purchase of other learning and strategy guides can be kept to a minimum. I say "nearly" full because 2 CATs (computer adaptive tests) is not enough. The physical books are a nice asset, as are the 2 (included) paper-based practice tests, but for a computer adaptive test, you have to spend lots of time preparing on a computer. For this purpose I prefer to spend an additional \$39 to purchase 6 (synthetic) GRE Computer Adaptive Tests (CATs) from Manhattan Prep. No, they are not real GREs, but they are still helpful for practice with the computer-adaptive format, and are of higher quality than most other imitation GREs. You can also try one test for free before committing through the Manhattan website (google "GRE Practice Test & Free Score Analysis - Manhattan Prep"). It is worth noting that this is primarily a book for practice,

not learning. The answer explanations in these books can sometimes be severely lacking, or in the case of the PowerPrep tests, nonexistent, which is part of why hiring a professional tutor can be helpful. However, for the disciplined and resourceful self-studier, these three books, the 2 (invaluable!) PowerPrep II CATs, a good vocab guide or two, a strategy guide (avoid Kaplan and Princeton--I prefer Manhattan, Magoosh, Barron's and McGraw-Hill) and some third-party CATs should do the trick. For those of you unfamiliar with the GRE, here is some basic information about the exam: -The GRE is primarily a computer-based test. Only 2% of test-takers choose the paper option. -You can take the test up to 5 times a year, and every 21 days. Scores are valid for 5 years. -GRE has an option called "ScoreSelect" that allows you to select only your best score and send that score only to the graduate programs of your choice. -The GRE offers a diagnostic service that allows you to view your performance on the test, including which questions you answered correctly/incorrectly, and how long they took you to answer. You cannot see the actual questions, however.

STRUCTURE OF THE

COMPUTER-BASED GRE: 1) "Analyze an Issue" Writing Task - 30 mins

2) "Analyze an Argument" Writing Task - 30 mins

3) Verbal or Quantitative Section - 30 or 35 mins* 4) Verbal or Quantitative Section - 30 or 35 mins* (10-MINUTE

BREAK) 5) Verbal or Quantitative Section - 30 or 35 mins* 6) Verbal or Quantitative Section - 30 or

35 mins* 7) Verbal or Quantitative Section - 30 or 35 mins** The order of the Quant and Verbal

sections varies. One of the Verbal or Quant sections will be unscored, or a research section. The

GRE is scored from 130 to 170 in both sections, for a total of 340 points. An average score is about 300/340, and you will receive your multiple-choice score immediately after the test is completed.

Because there are 40 questions in both Quant and Verbal, you can essentially add the number 130 to your number of questions answered correctly to get an estimate of your final score in each

section. Google "2016-2017 GRE Guide to the Use of Scores - Table

1" for more information.

HOW TO USE THE FREE GRE POWERPREP

SOFTWARE FROM ETS: Test preview tool: This will allow you to try some practice questions as

well as two essays. Timed Practice Test #1: This is your first official GRE practice test, and should

be taken at the beginning of your preparation to establish a baseline score. Timed Practice Test #2:

This is your only other real GRE practice test, so save it for the last few weeks of your preparation,

as an unbiased, trustworthy measure of your progress. Untimed Practice Test: This is exactly what it

sounds like, but I don't recommend taking it because it's exactly

the same as Practice Test #1. After you've taken Practice Test #1, however, feel

free to use the Untimed Test for additional practice on the tricky ones. The test preview tool is simply

meant to help get you familiar with the test and software interface, not to mimic the actual timing of the test. The test preview tool provides 7 verbal questions in 30 minutes, which is 4.3 minutes per question, and 11 quantitative questions in 35 minutes, which is 3.1 minutes per question. By comparison, on the actual GRE, you only have 1.5 minutes per question on both the Quant and Verbal sections.

To take a diagnostic test, click [“Timed Practice Test 1”](#) or [“Timed Practice Test 2”](#). There is a row of buttons at the bottom of the software that says [“Start Test / Resume Test / Review Answers”](#). Start Test = resets any old tests (WARNING! Be very careful not to click this button by accident--many students have made this mistake) and starts a new test. Because pressing just one wrong button on this test can delete all of your previous results, I recommend taking frequent screenshots, especially of your review screen, which lists all of your correct and incorrect responses. For your screenshots, use either the "Print Screen" (Windows Key + PrtScn) button on a PC or (Shift + Command + 3) on a Mac.

Resume Test = pick up the last test from where you left off. Review Answers = review your performance on the test, section by section (you cannot go back once you've completed a section without exiting and reviewing again).

-----RECOMMENDED RESOURCES:

In-between Timed Practice Tests #1 and #2 is the best time for students to work through the Official GRE Super Power Pack (these books), which consists of approximately 600 more real GRE questions for practice, along with (moderately helpful) answer explanations and learning sections.

the main book is the most helpful because it explains everything. Overall it is good because it is questions that are the most similar to what will be on the GRE, since it is made by the test makers. However it is best for practice but not so much for learning new materials. It is essential however so i would recommend buying at least the main book.

I bought these for my daughter. She is getting so much out of these books as she prepares for the GRE

Cheaper than buying it at the book store. Good value.

Everything you need in one package. Ordered this in a bundle.

It's all three books at a way cheaper price than ETS' website.

This has really helped!

good buy
